## **CLIENT INFORMATION & CONSENT**

Jermaine Watson LPC, NCC

737 Dunn Rd. Hazelwood, MO 63042 (314) 749-0760

## THERAPIST

Jermaine Watson LPC, NCC is a Licensed Professional Counselor engaged in providing mental health services to clients directly.

## MENTAL HEALTH SERVICES: BENEFITS & RISKS

While it may not be easy to seek help from a mental health professional, I hope that this experience will assist you in understanding your situation or problem and moving toward a resolution of this issue. A therapist has professional training and knowledge of human development and behavior and will make observations about your situation and will assist you in finding options for resolution of your issue(s). The therapist may utilize various therapeutic approaches in order to assist you in resolving your problem(s). You should be aware that entering into psychotherapy is a risk. Psychotherapy sessions can be painful at times. Often times, you may learn new information about yourself that you may not like. Often personal growth cannot occur until you are able to confront your issues and experience the associated feelings. These feelings may include pain, sadness, anger or shame. The success of our work depends on quality effort of both therapist and client and the realization that you are ultimately in control of and responsible for the changes that result from psychotherapy. Specifically, one risk of psychotherapy is encountering (positive or negative) reactions from significant others to your new lifestyle choices/changes.

## GOALS, PURPOSES, AND TECHNIQUES OF THERAPY

Psychotherapy may be one way to effectively treat your problem. There may be alternative ways to treat your problem. It is important for you to discuss any concerns you have regarding the therapist's treatment recommendations. The therapist encourages you to provide input into setting your goals for therapy and the therapeutic techniques used for treatment. As therapy progresses, these goals and techniques may change.

#### RELATIONSHIP

Your relationship with your therapist is a professional relationship. In order to preserve this relationship, the therapist cannot have any other type of relationship with you. Any personal or business relationships with you will undermine the effectiveness of the therapeutic relationship and therefore is strictly prohibited. Your therapist is committed to your mental health, but is not in the position to become socially or personally involved with you. Please note that the therapist cannot accept any gifts, or barter/trade services.

#### SESSIONS

Individual Therapy sessions are 50 minutes in length. The number of sessions needed depends on various factors and can be discussed during your session. Some insurance companies may provide a limited number of sessions under your designated plan. If your insurance company requires authorization for mental health services, it is your responsibility to obtain this authorization prior to our initial appointment. Requests for additional sessions from your insurance company will be requested by the therapist.

#### **APPOINTMENTS & CANCELLATIONS**

To schedule an appointment, please call my office number, (314) 749-0760. If you think that you will be unable to attend a scheduled appointment, please provide me with 24 hours' notice. If you miss an appointment, it is your responsibility to contact the therapist to reschedule. If you do not show up for an appointment, and do not call to cancel your appointment within 24 hours of the missed appointment, all future scheduled appointments will be canceled. The therapist does not provide reminder calls about your upcoming appointment. An appointment card will be provided to you for your convenience.

### CONFIDENTIALITY

All sessions with your therapist are confidential. No information will be released without your written consent. However, there are some exceptions including, but not limited to the following:

- 1. All insurance companies require that a provider furnish a diagnosis and sometimes a treatment plan on each client in order to justify the necessity of treatment and payment. Your insurance company paying for services may have a right to review all of your treatment records.
- 2. Missouri State Law demands that all providers report any suspected physical or sexual abuse to the appropriate Child or Elderly Hotline Services, which is then reported to the appropriate agency for investigation.
- 3. Missouri State Law and Professional Ethics require all providers to report if a client is homicidal or suicidal. This is reported in order to help the client rather than harm the client. Therapist also has a duty to warn any person who is a potential target for harm by a client. Therapist will notify targeted person and law enforcement of any such threats.
- 4. If a Federal or State Court requests the release of records, the provider has to comply, with certain exceptions.
- 5. Most insurance companies require that a provider keep a patient's "Primary Care Physician" informed of his/her mental health treatment. By signing the consent, you agree to allow me to keep your physician informed at my discretion.
- 6. A fee dispute between the therapist and client.
- 7. A negligence suit brought by the client against the therapist or a complaint filed with a licensing board, or other state or federal regulatory authority.

For further information, please review the Notice of Privacy Practices handout provided to you by the therapist. If you have additional questions, please address them with the therapist. By signing this information and consent form, you are giving consent to the understated therapist to share confidential information with all persons mandated by law and with the managed care company and/or insurance carrier responsible for providing your mental health services and payment for those services. You are also releasing and holding harmless the undersigned therapist from any departure from your right of confidentiality that may result.
